

Magnus Health Daily Health Screening Instructions

UPDATE 9/2: Magnus released an update to the app that requires passwords to be at least 10 characters. If you previously had trouble creating an account, please click the link below for updated instructions on setting up your account.

UPDATE 8/31: The app is set up for reporting on weekdays and will not show a daily health assessment on the weekends.

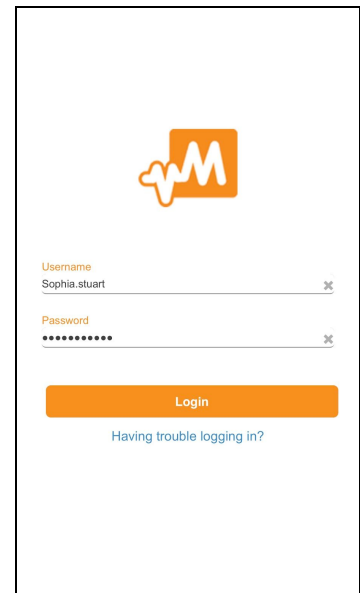

Dear Parents,

As you know from our Reopening Stuart presentations and Goal 5 Pledge, families will be expected to record temperature checks on a daily basis by 7 AM via a Magnus Health mobile app especially designed for COVID-19. Parents/Guardians must complete a daily symptom check each morning, prior to leaving for school.

This screening process helps us create the safest possible environment for everyone on campus by avoiding contact at the school entrances where person-to-person transmissions could take place. This process allows the Health Office a secure way to collect and manage the daily screenings.

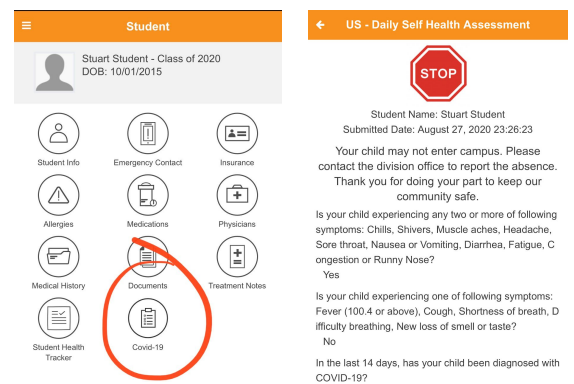

Complete the following steps before using the app:

1. [Click here for instructions](#) to create your Magnus App login credentials. You will use your myStuart username and password to create the new app account.
*It is important to note that the app does not save passwords. You will need to enter it every day or save it in your phone's Keychain.
2. Download the "Magnus Mobile V2" app from the Apple Store or the Google Play store.

COVID-19 Daily Symptom Screening In Magnus Health

1. Login to the app only after creating the new account through myStuart.

Your child may not enter campus. Please contact the division office to report the absence. Thank you for doing your part to keep our community safe.

Is your child experiencing any two or more of following symptoms: Chills, Shivers, Muscle aches, Headache, Sore throat, Nausea or Vomiting, Diarrhea, Fatigue, Cough or Runny Nose?
Yes

Is your child experiencing one of following symptoms: Fever (100.4 or above), Cough, Shortness of breath, Difficulty breathing, New loss of smell or taste?
No

In the last 14 days, has your child been diagnosed with COVID-19?

2. Once you log in, click on your child's name and then tap the COVID-19 button to begin the daily screening.
3. After you complete the survey each morning, you will receive either "GO" to school or a "STOP" with a stay home message for that day.
 - a. For students being dropped-off in the morning by a parent/guardian: Please have the Magnus app ready to show a passing temperature screening upon arrival to campus.
 - b. For students arriving by bus, carpool or driver: A parent/guardian must send a screenshot of a passing Magnus test to the student's device for entrance verification. **Students for whom we do not have a Magnus check will be taken to the gym and will sit physically distanced from other students for whom we don't have a check until the parent can be reached.**
4. If you receive a "STOP" message, your child will stay home. Please follow the directions in the app message.

As a reminder, the app is set up for weekday use and may not show the health assessment on the weekends. We thank you in advance for your cooperation in this daily screening as it is an integral part of our health and safety protocols. Each family must submit the screening every morning no later than 7 AM. Please reserve 1 to 2 minutes to complete this screening.

For any technical issues with the mobile app such as login problems, or problems completing the screening, please contact Magnus Customer Support at Magnus Health by phone at 877.461.6831 or by email at service@magnushealthportal.com. Parents can also use the Support Center for specific questions at <https://magnushealthsupport.force.com/s/>.

For all other health related matters, contact Tine Boss, school nurse, at nurse@stuartschool.org or your division assistant.
